SKILLS

- Frontend: HTML5, CSS, Bootstrap
- Backend: PHP (basic CRUD, MySQL integration), MERN (Learning)
- JavaScript: Beginner, React.js (learning)
- Database: MySQL, SQLite (basic)
- Other: GitHub, VS Code

LANGUAGES

- English
- Nepali

PROFILE

Independent and enthusiastic IT student with experience in frontend development and design. Skilled in HTML, CSS, and PHP, with basic knowledge of React. Passionate about developing responsive and user-friendly web applications, with keen interest in acquiring new frameworks and backend technologies.

PROJECT

Cookery

Frontend: HTML, CSS | **Backend:** PHP & MySQL

- Designed and developed a platform to help users search for places to hang out.
- Implemented user-friendly interface with responsive design for better accessibility.
- Integrated PHP with MySQL for dynamic content management and search functionality.
- Improved database handling by using CRUD operations for user input and place records.

Movie Trailer Web Application

Frontend: React.js, CSS, Tailwind CSS, JavaScript | **API Integration:** Tmdb API, **BACKEND:** Node.js, Express.js **Database:** MongoDB

- Developed a full-stack MERN application that fetches data from a movie API to display trailers.
- Designed responsive UI using React.js and Tailwind CSS.
- Integrated Node.js backend with MongoDB for storing user preferences and search history.
- Implemented React Router for seamless navigation and trailer playback.
